COMPANY OVERVIEW

DGX Security LLC helps workforce organizations, schools, public agencies, and nonprofits put AI to work safely and confidently. DGX is a government-approved training provider and a value-added technology reseller serving government and commercial clients.

Our mission: connecting underserved communities to the AI economy through practical skills, trusted instruction, and opportunity.

CORE COMPETENCIES

AI WORKFORCE TRAINING

DGX AI Workforce Foundations

A 10-hour instructor-led program covering practical AI tools and responsible use, plus employment, productivity, and digital skills. Certificate of completion.

DGX D.O.T. Workforce Foundations (Digital Opportunity & Technology)

Practical AI and digital readiness for transportation, construction, and infrastructure workforces: AI literacy, digital communication and documentation, AI-assisted résumé building, interview preparation, workplace problem solving, digital plans and job instructions, cybersecurity awareness, and responsible AI.

This program does not provide trade or occupational training.

AI-Ready Devices and Participant Enablement

Pre-configured, AI-ready devices for every participant, plus onboarding, guided AI use, and success coach support after completion.

Incumbent Worker and Employee Upskilling

AI and digital skills training for agency staff and contractor workforces, including support for contractors pursuing workforce and DBE participation goals.

TECHNOLOGY SOLUTIONS

Hardware & Software Reselling: enterprise IT hardware, software licenses, and networking equipment

Drop Shipping & Logistics: nationwide delivery of technology equipment directly to agency locations

Wireless & Network Infrastructure: Wi-Fi 6 design, procurement, and deployment support

Cybersecurity Solutions: security tools, endpoint protection, and secure networking equipment

Digital Equity & Connectivity: connectivity solutions for underserved communities

PAST PERFORMANCE

Hudson County Wi-Fi 6 Upgrade

Client: County of Hudson, NJ

Upgraded two County Parks to Wi-Fi 6, increasing public access speeds and concurrent user capacity.

Union County Digital Divide Initiative

Client: County of Union, NJ

During COVID-19, deployed connectivity solutions so residents in underserved communities could reach remote services.
